Gen. John A. Logan and party arrived here from Washington yesterday en route to Minneapolis to attend the Grant army encampment. They reached the city about 7 o'clock in the morning on a special train over the Fort Wayne Road, and were met at the Union Depot by "Long" Jones, Dutch Sammy, and a few others. Logan and Mr. Palmer repaired to a carriage in the latter's conveyance, the old General evidently, from the cheers of the party, about fifteen in number, eager to see the hero of Fort Donelson, and the Illinois Democrat who has been honored by friendly visits from Grant, Sheridan, Sherman, and other distinguished men. Gen. Logan, on being asked by a reporter of THE TRIBUNE for a statement in relation to the Grant boom, said: "I have nothing to say. I am not a candidate, and I am not managing anybody's campaign. AT WASHINGTON.

Busy Practice of Pension Attorneys—The Agricultural Implement Industry.

Decision of the Secretary of the Interior on Ending the Rights of Pre-emptors.

WASHINGTON, D. C., July 21.—[Special.]—Congress is not much excited about the Democratic investigation bill in charge of Mr. Springer, and the House is proceeding with the business of the session as if there were no such measure pending. The charge made against the personnel of a few men to conduct the examination is far from creditable to the character of the House, and no part of it will be paid until the matter is passed. The session promises to be a busy one, and Congress, however, will be the subject of attorneys, who expect that the law is more intricate now than the great expense incurred. It was, however, generally expected at the last that the investigation would be allowed to go by default, and that the Committee on Judiciary would be allowed to report a bill to the House. Such, however, is not the case, and the Democratic leaders are determined to push the matter through. Every day of delay adds to the expense of the investigation, and the Democrats are becoming restive under the heavy drain upon their own party treasuries. Many of the Democratic members have been importuned by their constituents to vote against the investigation, and they are now ready to do so. The Republicans are not disposed to make any opposition to the investigation, and will not do so. The Democrats are determined to push the matter through, and will do so. The Democrats are determined to push the matter through, and will do so. The Democrats are determined to push the matter through, and will do so.
